Summary

Full Stack Web Developer with background in Psychology. Educated at the University of California, Riverside Extension where I earned a certificate. Driven problem-solver with strengths in communication and analytical skills.

Technical Skills

HTML, CSS, JavaScript, JQuery, AJAX, Node.js

Projects

Spot-a-Show | Github: github.com/rahme/Spot-A-Show

Link to web page: rahme.github.io/Spot-A-Show

- A web application that allows the user to search for an artist's genre, top songs, and upcoming events. A convenient way for users to find events for their favorite artists.
- Researched a new css framework and troubleshoot errors in the HTML, CSS and JS.
- Tools used: HTML, CSS, JavaScript, Bulma CSS Framework, LastFM/Bandsintown API

Work Day Scheduler | Github: github.com/andrewyen64/work-day-scheduler

Link to web page: andrewyen64.github.io/work-day-scheduler

- A web application that lets a busy employee organize their daily work schedule by the hour. Based on the current time, the event blocks will change color.
- Utilized local storage to save user inputted events
- Tools used: HTML, CSS, Moments.js, JavaScript

Password Generator | Github: github.com/andrewyen64/passwordGenerator

Link to web page: andrewyen64.github.io/passwordGenerator

- A simple password generator that gives the user options to customize the length and whether or not to include lowercase, uppercase, numeric and/or special characters.

Education

Bootcamp Certificate: University of California, Riverside, CA

An intensive Full-Stack Web Development coding bootcamp focused on skills in HTML, CSS, JavaScript, JQuery, Node.js, MySQL, Express, React.js
